The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Applicant's election of claims 1-35 (new claim 76 as well) in Paper No. 7 is acknowledged. Applicants have not traversed this restriction, thus the requirement is still deemed proper and is therefore made FINAL.

**Applicants are reminded to cancel the non elected claims.**

Claims 1 and 4-18 are rejected under 35 U.S.C. 102(a or e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over either (1) Shemo et al. or (2) Fang (227) for the same reasons set forth in the previous office action which are incorporated herein by reference.

Claims 2-3 and 19-35 are rejected under 35 U.S.C. 103(a) as being unpatentable over either (1) Shemo et al. or (2) Fang (227).

**New claim 76 is rejected under 35 U.S.C. 103(a) as obvious over either (1) Shemo et al. or (2) Fang (227) because this claim defines the features for the intended use of the composition and this is the intended use of the claimed composition provides no patentable weight to a composition claim.**

Claims 1, 4, 5 and 11-18 are rejected under 35 U.S.C. 102(a or e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Brusich et al. for the same reasons set forth in the previous office action which are incorporated herein by reference.

Art Unit: 1755

Claims 2-3, 6-10 and 19-35 are rejected under 35 U.S.C. 103(a) as being unpatentable over Brusic et al. in view of Fang (227).

**New claim 76 is rejected under 35 U.S.C. 103(a) as obvious over Brusic et al. in view of Fang (227) because this claim defines the features for the intended use of the composition and this is the intended use of the claimed composition provides no patentable weight to a composition claim.**

Claims 1, 4, 5 and 11-18 are rejected under 35 U.S.C. 102(a or e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Moeggenborg et al. for the same reasons set forth in the previous office action which are incorporated herein by reference.

Claims 2-3, 6-12 and 19-35 are rejected under 35 U.S.C. 103(a) as being unpatentable over Moeggenborg et al. in view of Fang (227) and Dirksen et al.

**New claim 76 is rejected under 35 U.S.C. 103(a) as being unpatentable over Moeggenborg et al. in view of Fang (227) and Dirksen et al. because this claim defines the features for the intended use of the composition and this is the intended use of the claimed composition provides no patentable weight to a composition claim.**

Applicant's arguments filed 10/14/03 have been fully considered but they are not persuasive.

Applicants argue that the declaration of Zhefei J. Chen establishes that the instant invention is prior to 12/17/1999 (reduced to practice prior to the reference filing dates). The

Art Unit: 1755

examiner acknowledges the above declaration, but this is insufficient to establish prior invention for the claimed subject matter, for the reasons defined below. As defined in independent claim 1, no amounts are defined for the periodic acid. In independent claim 19, a range of 0.05-0.3 moles/kg is defined for the periodic acid. Finally, dependent claims 3 and 20 define a range of 0.075-0.175 moles/kg for the periodic acid. The declaration, however, only defines one point for the periodic acid, this being 0.1 moles/kg of periodic acid. At most, the declaration establishes prior invention for that specific point. To the contrary of applicants position, the declaration does not show reduction to practice of the entire ranges being claimed. In addition, a 131 declaration can not be used to antedate a reference if the reference claims an invention that is not patentably distinct. As can be seen from Shemo et al., at least, the claims are directed to a composition that comprises an abrasive and periodic acid, thus a 131 declaration can not be used to overcome the reference.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1755

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
